## 2019-20

## Second Quarter Report

## SUMMARY OF MAJOR CHANGES

The district has completed its financial analysis for the second quarter of operation (October 1, 2019 through December 31, 2019). Enclosed in this document is a reporting for all of the funds the district maintains as authorized by the California Education Code. The short description and analysis at the beginning of each fund report explains the purpose of the fund and recent financial trends that may have changed from the adopted budget. Also, included in this report is a supplemental information section that contains the State Quarterly Report (311Q). The following analysis of the General Purpose Fund contains slight presentation differences from previous quarterly reports which reflect the most recent information related to approved compensation adjustments; other compensation agreements pending Board of Trustees approval will be included in the next quarterly report.

## Enrollment Assumptions

Under the adopted budget assumptions, we anticipated serving 26,422 resident and non-resident FTES. This number reflected resident enrollment of 22,335 FTES and non-resident enrollment of 4,087 FTES.

Fall quarter enrollment declined year-over-year for the same census period in 2018-19 by 307 FTES. Overall, we are anticipating a decline of 691 FTES; 219 in resident and 472 in non-resident FTES.

## Non-Resident Enrollment

Although we have not made any adjustments to our revenue projections, enrollment in this student population continues to be carefully monitored. Non-resident enrollment declined by 159 FTES over the previous year's summer and fall quarters a trend that is consistent both regionally and nationally. Since it is more volatile and dependent on many external factors, such as access to visas, exchange rates, etc., we will closely track our non-resident revenue throughout the year and revise our projections, as well as corresponding expenditure estimates, as more data becomes available for analysis.

## GENERAL PURPOSE FUND OVERVIEW

## Revenue

As previously reported in the adopted budget, during this second year of the new Student Centered Funding Formula (SCFF), the district's 2019-20 general fund apportionment allocation will again be calculated based on the SCFF's hold-harmless provision since it will result in a higher level of funding
for the district. The district expects to receive $\$ 156.9$ million in apportionment revenue in 2019-20, $\$ 140.5$ million in ongoing funding with the hold-harmless temporary allocation estimated at $\$ 16.4$ million. This revenue has been calculated based upon the apportionment funding we received in 201718 plus COLA for the 2018-19 and 2019-20 fiscal years. Due to the additional year of hold-harmless funding approved as part of the state's 2019-20 budget, this same hold-harmless test for funding levels is anticipated to be applied through the 2021-22 fiscal year. After this time, districts will receive their apportionment funding based solely on the metrics of the new formula, which will be a concern for the district as it will result in a substantial revenue reduction unless the metrics related to the SCFF, in particular FTES, improve over the next two years.

## Expenditures

The certificated employee group ratified a $6 \%$ increase as salary schedule adjustment that was processed in the second quarter. The increase to the certificated category is currently estimated at $\$ 4$ million in salaries and $\$ 615,000$ in benefits. These numbers may increase depending on the Part-Time faculty costs incurred in the second half of the year. As part of faculty negotiations and Part-Time Faculty Parity pay, an additional step has been added to the part-time faculty salary schedule; the budgetary effect is not known at this time.

Classified and administrator employee groups' salary adjustments are still being negotiated or pending Board approval, so the full effect of the salary schedule adjustments should be determined in the coming quarter. There were net budget savings due to unfilled regular and SRP (supplemental retirement program) vacant positions, $\$ 2.2$ million in Classified Salaries and $\$ 688,000$ in the Benefit category. Traditionally any float from vacant classified and management positions is transferred to the colleges or Central Services as additional one-time 'B' budget.

In accordance with the District's budget planning, the first-year results of the SRP are beginning to materialize. We are refining the methodology to allocate net savings from , n SRP identified budgeted positions to cover the actual SRP-related costs that have been incurred. A reserve of the fund balance related to these savings has been created to capture the resources from the early phase of program that will be used to fund the full five-year program commitment. SRP budget adjustments are included in the budget revision figures to reserve budgeted resources required to fund the annual SRP obligation.

## Stability Fund

As of adopted budget, we estimated the projected stability fund at $\$ 23.7$ million. An estimated $\$ 11.6$ million to cover compensation adjustments and other negotiated items for 2019-20 was included as part of the projections, leaving the estimated stability fund balance at $\$ 11.4$ million at the end of the fiscal year. The estimated Stability Fund balance as of second quarter is $\$ 22.8$ million, which will be
further reduced when the final negotiated compensation adjustments are approved and processed. The final year-end Stability Fund balance will vary depending on final operating results of revenues and expenses that will also include the first-year results of the SRP.

The Stability Fund is a one-time resource to temporarily offset future operating cost increases and potential revenue reductions in the short or long-term. State revenue reductions can unexpectedly vary from anticipated levels due to current year deficits enacted by the state. Permanent revenue reductions may occur in the coming years due to persistent enrollment decline and the continued uncertainty surrounding the changes with the Student Centered Funding Formula. Though the temporarily increased revenue due to the hold-harmless provision has a positive impact on the out-year projections contained in our "Multi-Year Projections for General Purpose Fund (Fund 114)" model, any major increases to ongoing expenditures will cause the budget to fall into a significant structural deficit state when measured against projected ongoing revenue. As noted in the projections, forecasting only standard ongoing operating expenditure increases will cause the district to return to a deficit spending pattern even after the budget reductions enacted in the last two years. Consequently, the district needs to ensure its planning process includes the flexibility to respond to any sudden or ongoing changes in funding that might affect the stability fund's availability to offset any deficits.

## ALL FUNDS CHART

## SELF-SUSTAINING

## Fund 115

Self-Sustaining funds, as the name implies, counterbalance operating expenditures against the revenues generated from various instructional arrangements. Not all related costs are allocated to these programs but, for those expenses that are charged, the programs are expected to generate income or use accumulated balances to cover them. Although budgets are used as a means to forecast and control revenue and expenditure activity, spending is solely dependent upon their ability to generate sufficient revenue to adequately support such operations.

Most accounts within this group have residual funds, and excess revenues over expenditures are available for use at the respective college's discretion. The residual funds are regarded as designated funds, which mean that, although the district regards them as restricted, they are actually unrestricted and are reported to the state as such. The Board of Trustees has the discretion to use the funds for any lawful purpose.

## Current Status:

In the second quarter, changes to the Self-Sustaining Fund include a transfer in from the Flint District Operation Fund for operational support of KCl Center, with a corresponding increase to the operating expenses category $(\$ 300,000)$. The transfer will be reclassified to other sources category in the third quarter.

# RESTRICTED and CATEGORICAL Fund 121/131 

Restricted and Categorical Funds are those resources that come from federal, state or local agencies. In general, money received from these programs is restricted for a specific purpose. The principal programs in the Restricted and Categorical Fund are as follows:

Perkins Career and Technical Education Act (CTEA): Federal funds administered by the state for technical education and improvement of career and technical programs.

Student Equity \& Achievement (SSSP, Student Equity, \& Basic Skills), Staff Development, Staff Diversity, Extended Opportunity Programs and Services (EOPS), Cooperative Agencies Resources for Education (CARE), and CaIWORKs: These programs target specific populations or services funded by the state.

Instructional Equipment and Library Materials (Block Grant): State funding carried forward from prior years to meet instructional equipment and library materials needs.

Physical Plant and Instructional Support: The 2019-20 Budget Act provides a one-time increase of $\$ 13.5$ million Proposition 98 settle-up for deferred maintenance, instructional equipment, and specified water conservation projects. These resources allow districts to protect investments previously made in facilities, and to improve students' experiences by investing in new instructional equipment. For 2019-20, the district will receive $\$ 281,632$ for Physical Plant and Instructional Support, for which no local match is required. Of this, $\$ 168,979$ is budgeted in the Capital Projects Fund and the remainder in the Restricted and Categorical Fund.

California Virtual Campus Online Education Initiative (CVC-OEI) - formerly Online Education Initiative (OEI): The goal of the initiative is to increase the number of California students who obtain associate degrees and transfer to four-year universities by dramatically increasing the number of online classes available to community college students and providing those students with comprehensive support services to help them succeed. The original five-year grant ended on June 30, 2018.

The Chancellor's Office awarded the second five-year California Virtual Campus Online Education Initiative (CVC-OEI) grant to Foothill-De Anza Community College District. The CVC-OEI grant will be $\$ 20$ million per year for five years, ending June 30, 2023. The Chancellor's Office awarded a second one-time augmentation grant to support special projects pertaining to improving CVC-OEI. This grant
is for $\$ 35$ million and anticipated to end by June 30, 2021. CVC-OEI is budgeting $\$ 57.8$ million in expenditures for 2019-20, which includes $\$ 20$ million from the new CVC-OEI grant, an unspent $\$ 7.4$ million balance from the one-time 2016-17 augmentation grant, and $\$ 30.4$ million from the one-time 2018-19 augmentation grant.

Adult Education Block Grant: The Adult Education Block Grant Program provides adult education funding to county offices of education, school districts, and regional consortia to support Assembly Bill 86 specified programs. The intent of $A B 86$ is to expand and improve the provision of adult education with incremental investments beginning with fiscal year 2015-16.

Economic Development: State funding provided for projects to improve career development services locally and regionally.

Strong Workforce Program: At the recommendation of the California Community College Board of Governors, the Governor and Legislature approved the Strong Workforce Program, adding a new annual recurring investment of $\$ 200$ million to spur career technical education (CTE). This was included in the 2016 Budget Trailer Bill and chaptered into California Ed Code 88820-88826. The purpose is to develop more workforce opportunities to lift low-wage workers into living-wage jobs, with the goal of creating one million more middle-skill workers. This program is grouped into seven areas targeting student success, career pathways, workforce data and outcomes, curriculum, CTE faculty, regional coordination and funding, and builds upon existing regional partnerships formed in conjunction with the federal Workforce Innovation and Opportunity Act, state Adult Education Block Grant and public school CTE programs.

Guided Pathways: The 2017-18 California State Budget provided $\$ 150$ million in one-time grants for California community colleges for five years. The Guided Pathways framework creates a highly structured approach to student success that provides all students with a set of clear course-taking patterns that promotes better enrollment decisions and prepares the students for future success.

Health Services Fees: Health Services fees are set by the state and we are mandated to provide a fixed level of services. These fees are collected from students and are restricted for the provision of health services for students.

Mellon Scholars Grant: Funded by the Andrew W. Mellon Foundation, Foothill-De Anza in partnership with the University of San Francisco, was awarded a four-year $\$ 2.145$ million grant in 2016-17, of which $\$ 1.465$ million goes to Foothill-De Anza and $\$ 679,547$ goes to USF. These funds
will support selected underserved and underrepresented students, identified as Mellon Scholars, in the study of humanities with the ultimate goal of obtaining a four-year college degree.

Early College Promise: Santa Clara County awarded a $\$ 300,000$ grant to Foothill College, to be distributed equally over three fiscal years, beginning with 2018-19. The mission of the program is to help bridge the gap between high school and college and to increase participation in the dual enrollment Early College Promise Program at Foothill College. This program supports the educational goals of high school students through early exposure to college programming and accumulation of transferable college credits prior to high school graduation.

## Current Status:

In the second quarter, changes to the Restricted and Categorical Fund include a transfer in from the General Purposes Fund for expenses in excess of the amount covered by the grant, with a corresponding increase to the operating expenses category ( $\$ 25,240$ ); a transfer out to the Student Financial Aid Fund for student scholarships, with a corresponding decrease to the operating expenses category (\$4,200); and a transfer to the Federal Work Study Fund for a recalculation of Administrative Cost Allowance ( $\$ 5,338$ ); a corresponding budget revision will be processed in the third quarter.

## FEDERAL WORK STUDY

## Fund 123

Federal Work Study is a federal program providing financial aid to students in the form of compensation for work performed for on-campus and off-campus work. The district is required to contribute $25 \%$ of the total funds compensated to work-study employees. Beginning with the 2000-01 year, institutions were required to spend at least $7 \%$ of the work-study allocation to pay students performing community service work.

## Current Status:

In the second quarter, changes to the Federal Work Study Fund include a transfer in from the Restricted and Categorical Fund to offset a recalculation of Administrative Cost Allowance (\$5,338); a corresponding budget revision will be processed in the third quarter. The projected total reflects changes in classified salaries, benefits, and materials and supplies categories with no change to the net fund balance.

## PARKING

## Fund 125

This fund collects all revenues and expenses associated with providing parking services at both campuses. Revenues are derived from sales of parking decals, daily permits, and fees from special events. Expenditures are restricted by state law to road and parking lot maintenance, parking security costs, related operating overhead and public transportation for students and staff. Unlike the health fee, the parking fee does not rise automatically with the Consumer Price Index. This results in continued reductions to security services for parking and virtually no dollars available for parking lot maintenance.

Fees from parking permits are governed by the state Education Code section 76360. We are projecting an excess of operating expenses over revenue of $\$ 424,330$, which will be covered, as in prior years, by a transfer in from the General Purpose Fund to allow the Parking Fund to break even for the year, resulting in no fund balance.

## CAMPUS CENTER USE FEES

## Fund 128

Revenues are generated by collecting a mandatory fee for use of the campus centers at each institution. The proceeds are isolated by campus and are restricted for the following purposes in order of priority: 1) retirement of Certificates of Participation financing the campus center expansion and renovation projects, 2) repair and replacement of existing student campus center facilities, and 3) personnel support of campus center operations.

In November 2006, the district issued a Certificate of Participation for $\$ 11.33$ million, which paid for a portion of the new Foothill Campus Center building and a portion of the renovation of the De Anza Campus Center building. This Certificate of Participation was refinanced in December 2016. The campus center student use fees from both campuses will cover the annual debt service.

## Current Status:

In the second quarter, the projected total reflects changes in materials and supplies, operating expenses, and capital outlay categories with no change to the net fund balance.

## CAPITAL PROJECTS

## Fund 40

Each account in this fund represents a specific capital project of sufficient importance to warrant separate accounting from the General Purpose Fund. All project budgets, budget transfers, and actual project expenditures are periodically submitted for review to the Board of Trustees, and if necessary, state agencies. Bond funded project activity is also periodically reviewed by the Audit and Finance subcommittee of the Board and the Citizens' Oversight Committee.

Budgets are reported on a project basis, whereas actual revenues and expenditures are accounted for on both a project and fiscal year basis. Funding may come from either outside sources, such as state sources, General Obligation Bonds, borrowings or donations, or from transferring resources from internal funds that will receive the benefit from the assets being created. Plant Services assumes fiscal responsibility for most of these financial accounts and reconciles these accounts with the project cost accounting system. The district currently has a number of major capital outlay projects, clean energy projects and scheduled maintenance projects either under construction or in various queues.

Capital Projects: The 2019-20 Budget Act provides a one-time increase of $\$ 13.5$ million Proposition 98 settle-up for deferred maintenance, instructional equipment, and specified water conservation projects. These resources allow districts to protect investments previously made in facilities, and to improve students' experiences by investing in new instructional equipment. For 2019-20, the district will receive $\$ 281,632$ for Physical Plant and Instructional Support, for which no local match is required. Of this, $\$ 168,979$ is budgeted in the Capital Projects Fund and the remainder in the Restricted and Categorical Fund.

Measure C Projects: On June 6, 2006, voters in the district's service area approved by a $65.69 \%$ margin a $\$ 490.8$ million General Obligation bond (Measure C). In May 2007, the district issued Series A bonds of $\$ 149.9$ million and Series B bonds of $\$ 99.9$ million. In June 2011, the district issued Measure C, Series C bonds for $\$ 184$ million. ## ENTERPRISE FUND

 FOOTHILL and DE ANZA CAMPUS CENTERS FLINT CENTERThe Enterprise Fund is accounted for in a manner whereby the total costs of providing goods and services are financed or recovered primarily through user charges. Enterprise operations are comprised of the Foothill and De Anza College Campus Centers and the Flint Center for the Performing Arts. The Campus Centers include the two Bookstores and De Anza Dining Services. Financial activity in the Enterprise Fund is measured by gross margins and net profit rather than by the governmental budget to actual measurement.

## Foothill Enterprise Fund

## Bookstore

Sales, textbook rental and commission revenues for Foothill Bookstore are projected to increase due to the increase of students, who are eligible for book store vouchers from the expansion of the Foothill College Promise Program. In 2018-19, only qualified students received book store vouchers. For 201920 all students, who enroll in the College Promise program, will be eligible for book store vouchers, irrespective of the income levels. Qualified EOPS students will also receive a $\$ 750$ book store voucher. The overall expenses are expected to decrease, due to lower salaries, benefits, and operating expenses. A net profit of $\$ 41,538$ is projected for the year.

## De Anza Enterprise Fund

## Bookstore

Sales, textbook rental and commission revenues for De Anza Bookstore are expected to increase due to a slight increase in enrollment from prior year based on preliminary enrollment reports, increases in print shop activities, and an increase in the College Promise Program book vouchers in fiscal year 2019-20. A net loss of $\$ 111,555$ is projected for the year.

## Dining Services

An increase in sales revenue is projected for Dining Services due to planned price increases compared to fiscal year 2018-19. For 2019-20, expenses are expected to decrease, mainly due to lower salaries and benefits expenses. A net profit of $\$ 39,513$ is projected for the year.

## Combined Bookstore \& Dining Operations

A net loss of $\$ 72,402$ has been projected for the De Anza Campus Center:

- Bookstore - \$111,555 Net Loss
- Dining Services $-\$ 39,513$ Net Profit

## Flint Center Fund

The Board of Trustees decided to permanently close the Flint Center and has convened the Community Benefit Initiative Steering Committee to begin the process of developing an action plan leading to the development of proposals for a new facility by the end of 2020 to benefit the students and the community.

The changes to the Flint District Operation Fund include a transfer out to the Self-Sustaining Fund for operational support to the KCl Center $(\$ 300,000)$, and a budget revision for expenses incurred in preparation for the repurpose/redesign of the existing Flint Center, with a corresponding increase to the operating expenses category $\$ 60,000$.

## INTERNAL SERVICE

## Fund 60

The purpose of this fund is to separately account for particular services provided on a district-wide basis. Costs associated with providing health benefits, workers' compensation, extended sick leave, and post-retirement benefits are to be accounted for in the Internal Service Fund, and an appropriate service rate is charged to each of the other funds.

In the past, this fund was used almost exclusively as an accounting convenience to charge benefits in one fund and then distribute them to all other funds. Certain positive or negative ending balances are closed to the Unrestricted General Purpose Fund at year-end. Benefits accounting analysis continues to improve on the various benefit types, requirements, costs and funding. As more information becomes available, changes to improve reporting and accounting efficiency have been implemented. As an example, activities are monitored separately with performance measured in accordance to specific objectives and timelines which has an effect on the Rate Stabilization Fund (RSF).

The Rate Stabilization Fund (RSF) is accounted for within the Internal Service Fund. It is used to offset costs and stabilize the variable benefit rate increases so that increasing costs can be "smoothed out" more gradually, allowing time to adjust the plan and/or rates in an informed manner through the Joint Labor Management Benefit Committee (JLMBC). The RSF activity is reported on a calendar year basis to align with the benefit plan year. Final RSF benefit plan year balances are reported in the second quarter report after plan year contributions and expenses are closed out in December.

## OTHER TRUST (OPEB)

## Fund 79

This fund reports on assets that are set aside in an irrevocable trust to satisfy the district's unfunded liability related to Other Post-Employee Retirement Benefits (OPEB). In accordance with Governmental Accounting Standards (GASB) and other state government codes, the funds are invested in an IRS Section 115 trust fund, California Employers' Retiree Benefit Trust Fund (CERBT) under CaIPERS. The actuarial study and funding plan were prepared in accordance with GASB 45. For the year ending June 30, 2018, the district implemented GASB 75, which fully recognizes the OPEB liability on the district's balance sheet in the annual audited financial statements. This does not affect the reporting of Fund 79 within the quarterly financials, which only presents the budget and income statement activity during the fiscal year.

Annually, this fund incurs minimal activity consisting of the district's annual contribution. This is typically recorded in the second quarter, with investment income and administrative fees recorded in the fourth quarter of the fiscal year with the projected new-year balance reflected in the Adopted Budget.

For the 2019-20 fiscal year, we will recommend a transfer of $\$ 1.5$ million from the General Purpose Fund to contribute to the California Employers' Retiree Benefits Trust (CERBT) for Other PostEmployment Benefits (OPEB) liability. The following table is a historical summary of the irrevocable trust's activity which reflects an estimated balance of \$24,097,567 for fiscal year 2019-20.
